

Savaria® Side Entry_(short) for Dodge Caravan

SIDE ACCESS AND GREAT VALUE

When you want the convenience of side entry access with the wheelchair position in the second row, the Savaria side entry "short floor" is the perfect solution. This van conversion features a stainless steel lowered floor design that starts behind the front row seating and continues to the third row bench seat (56.25"). This provides flexibility for the wheelchair passenger to ride in the second row area of the van. Shorter than the floor used in a full floor conversion, there is less structural change to the van making it more affordable.

With its unique, optional second row care-giver seat, this conversion van provides the closest access to the wheelchair passenger and is not available from any other manufacturer. A popular choice for families, the Savaria side entry short floor seats up to 6 ambulatory passengers. Safety and quality are of paramount importance at Savaria and great care is taken to build each vehicle to our high standards. Our vehicle conversions carry a 3-year warranty (60,000km/36,000 miles).

Savaria® Side Entry_(short) for Dodge Caravan
